

Advanced Functionalities

metaRadiology & Volumetrica

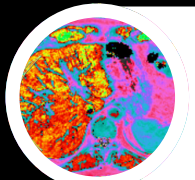

Multiple Sclerosis

Detect or Track Demyelination

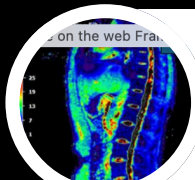

Steatosis

Liver Fat Measurement

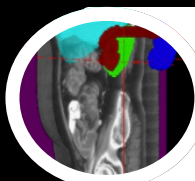

Hemosiderosis

Iron Content Quantification

Osteoporosis

Bone Marrow Fat Fraction Estimation

Volumetrica

AI-based 3D Segmentation & Radiomics

Why Choose quantiDOS?

Streamline hospital imaging with an AI-powered, cloud-native platform built for speed, scale, and security.

Facing Today's Imaging Challenges

Radiologist Burnout & Workflow Inefficiency

Evorad delivers <1 sec loads, smart worklists, and AI triage to streamline reads and reduce friction.

Disconnected Systems & Imaging Data

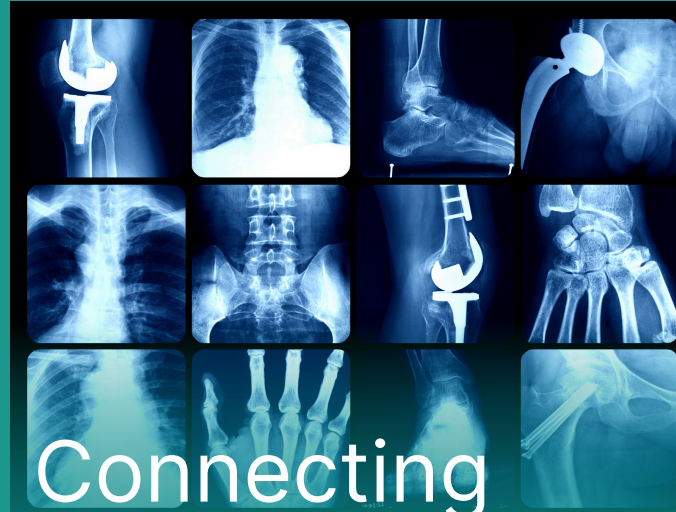

Evorad unifies imaging across sites and vendors seamlessly.

IT Complexity, Costs & Compliance Pressure

Evorad's cloud-native architecture reduces CapEx, ensures GDPR/HIPAA alignment, and improves uptime with resilient hybrid deployments.

CRAFTING
EMPOWERING
TECHNOLOGIES

Connecting Imaging, Insight, and Care.

- ✓ AI-Assisted Diagnosis
- ✓ Seamless Collaboration
- ✓ Data Security & Compliance

All-in-one platform for imaging solutions

Unify Imaging in One Hub

Centralize routing, priors, and study lifecycle across vendors and sites with seamless integration.

View, Report, Collaborate—Anywhere

Zero-footprint diagnostic viewing with <1 second loads, structured reporting, and in-browser 3D.

Segment and Quantify in Minutes

Whole-body 3D masks and radiomic features from CT/MR in a few clicks.

Map Disease with Confidence

Generate quantitative MRI biomarkers and disease-specific reports using optimized protocols.

Archive Smarter, Retrieve Faster

Tier storage to cut costs and recall studies transparently into clinical workflows.
